Quiz Instructions

It's time to check your knowledge! Use this quiz to create a custom study guide. Note any answers that were marked incorrect, so you can study the relevant material and try this quiz again.

If you don't know the answer to a question, please do not guess. Instead, select "I don't know". It's OK not to know everything and to admit when we're unsure.

Check the [Active Record Validations docs](https://guides.rubyonrails.org/active_record_validations_docs)

(https://guides.rubyonrails.org/active_record_validations.html) if you need help!

Question 4

1 pts

Which of these validations is most appropriate for making sure that a model's **category** must be either "Fruit" or "Vegetable"?

Check the [Active Record Validations docs](https://guides.rubyonrails.org/active_record_validations_docs)

(https://guides.rubyonrails.org/active_record_validations.html#validation-helpers) if you need help!

- ☐ validates :category, one_of: ["Fruit", "Vegetable"]
- ☐ validates :category, inclusion: { in: ["Fruit", "Vegetable"] }
- ☐ validates :category, must_be: ["Fruit", "Vegetable"]
- ☐ validates :category, presence: { in: ["Fruit", "Vegetable"] }
